Welcome to the 2nd Edition of **Le Giornate della Luce, The Days of Light International Festival – Homage to Cinematographers in Italian Cinema**, tribute to the Cinematographic Image, or Photography in Cinema.

The Festival takes place every year in **June** during the days of the summer solstice and it features film screenings, meetings, seminars and exhibitions. The Festival first edition took place in **2015**, which was proclaimed *International Year of Light and Light-based technologies* by the UN.

In the broad spectrum of cultural and cinematographic events of the Friuli Venezia Giulia region, **Le Giornate della Luce** Festival aims to celebrate the role of the **Cinematographers** of our time – **the Masters of Light** – in Italy and on the international film scene.

The event – organized by **Ms. Gloria De Antoni** and **Mr. Donato Guerra** – ideally celebrates the brightest days of the year, the summer solstice, within a framework of excellence: Spilimbergo, the city of mosaics and of a lively photographic tradition.

The programme of The Days of Light will culminate in the awarding of the second **Il Quarzo di Spilimbergo - Light Award**. This prize will be awarded to the best Cinematographer for the Pho-

tography of an Italian film of the last season by a jury of experts. In addition, a Jury of Students of film schools will award the **Il Quarzo dei Giovani - FVG Film Commission Award**, choosing among the three feature films that have obtained the best score by the Jury of Experts. Numerous national and international guests are expected for this 2nd Edition, including film industry experts, directors, photographers, cinematographers and actors of the Italian film industry.

Film screenings, meetings with Set Photographers, Cinematographers, Film Directors and Actors, workshops, exhibitions on cinema and photography, cultural and food&wine tours: **Le Giornate della Luce - The Days of Light** will be all this and much more.

SEE YOU THERE!
